WORK EXPERIENCE

Studio C - Web Developer

August 24, 2015 - June 1, 2016

- Held meetings with clients to discuss project direction and essential features to include.
- Built and maintained numerous websites for clients using HTML, CSS, Javascript, PHP, and Wordpress.
- Reduced loading times

Clark County IT Department - Assistant Programmer

July 5, 2015 - July 15, 2016

- Worked in a team to develop and maintain multiple websites that were accessed by thousands of people using HTML, CSS, JSON, and Javascript.
- Accessed and manipulated large volumes of data to display on the website.
- Increased user experience by improving the layout of the website and its functionality.
- Communicated with supervisors frequently to address the website design and functionalities.

PROJECTS

Pique

- Created a website that asked about the user's mood and recommended a corresponding activity.
- Implemented a login and registration feature using Laravel.
- Managed a database holding all the users and activities with PHP and MySQL.
